

Saurabh Prajapati

ML Engineer / Data Analyst / Python Developer

+91 9173580417 | saurabhprajapati246@gmail.com | github.com/Saurabh-Prajapati123 | Ahmedabad, Gujarat

PROFESSIONAL SUMMARY

Results-driven BCA graduate with hands-on experience building and deploying machine learning models. Proficient in Python, Scikit-learn, Pandas, NumPy, and Flask. Demonstrated ability to take ML projects from data preprocessing through live deployment on cloud platforms. Seeking a junior ML Engineer or Data Analyst role to apply and grow technical skills in a production environment.

EXPERIENCE

Software Developer | Vinexa Infotech Solutions *June 2026 – Present*

- Working as a Software Developer building full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) integrated with Python-based services.
- Developed and maintained RESTful APIs and backend services combining Node.js/Express with Python for data processing and automation.
- Collaborated in an agile team environment, contributing to feature development, bug fixes, and code reviews across the stack.

AI / ML Developer (Intern) | Conva Technology *30 Mar 2026 – 30 Apr 2026*

- Worked on AI/ML development tasks as part of the internship programme.

AI / ML Developer (Intern) | Spark to Ideas *25 Nov 2025 – 25 Jan 2026*

- Designed and implemented 5+ ML and data analysis projects using Python, Scikit-learn, Pandas, NumPy, and Matplotlib.
- Performed end-to-end data preprocessing, feature engineering, model training, and performance evaluation.
- Built and deployed REST APIs using Flask, exposing trained ML models for real-time inference.
- Gained practical experience translating business problems into data-driven ML solutions.

PROJECTS

Tally AI Assistant — *React.js · Node.js · Express.js · Google Gemini API · CSV*

- Developed an AI-powered assistant that allows users to upload Tally ERP CSV reports and ask business questions in natural language.
- Built a React frontend with a Node.js/Express backend supporting secure CSV uploads and AI-powered analytics.
- Integrated Google Gemini API to generate insights such as sales trends, top customers, GST summaries, and inventory analysis.

Company Research Agent — *Python · LLM · AI · Automation*

- Built an AI-powered research agent that collects and summarizes company information from multiple public sources.

House Price Prediction — *Python · Scikit-learn · Ridge Regression · Flask · Postman*

- Built an end-to-end ML pipeline on the Boston Housing Dataset: data preprocessing, feature scaling, Ridge Regression training, and REST API deployment via Flask.
- Achieved strong predictive performance evaluated by R^2 Score and Mean Squared Error; API tested and validated via Postman.

Medical Insurance Cost Prediction — *Python · Scikit-learn · Flask · Gunicorn · Render*

- Developed a regression model to predict medical insurance costs and deployed it as a live web application using Flask + Gunicorn on Render cloud platform.
- Live and publicly accessible — demonstrates full production deployment experience.

Weather Data Analysis — *Python · Pandas · NumPy · Matplotlib*

- Performed exploratory data analysis on weather datasets; created insightful visualizations including trend lines, histograms, and correlation heatmaps to surface patterns.

Smartphone Sales Analysis — *Python · Pandas · NumPy · Matplotlib*

- Analysed smartphone sales data to identify top-selling brands and price trends; produced clear comparative charts for business insights.

Python JARVIS — AI Voice Assistant — *Python · NLP · Speech Recognition · Automation*

- Built a voice-command assistant capable of information retrieval, system automation, and task execution using Python NLP and speech-recognition libraries.

Currency Converter — *JavaScript · Fetch API*

- Developed a real-time currency converter web app consuming a live exchange-rate API to support multi-country conversions.

TECHNICAL SKILLS

Languages: Python · Java · JavaScript · SQL · PHP · HTML · CSS

ML / AI: Scikit-learn · Regression · Classification · NLP · Model Deployment · LLM Integration

Data: Pandas · NumPy · Matplotlib · Seaborn · Power BI

Web / APIs: Flask · Django · React.js · Node.js · Express.js · MongoDB · REST APIs · Fetch API · Gunicorn

MERN Stack: MongoDB · Express.js · React.js · Node.js · Mongoose · JWT Auth · RESTful API Design

Tools: Git · GitHub · Postman · Render (cloud deployment) · Google Gemini API

EDUCATION

Bachelor of Computer Applications (BCA) | Silver Oak University, Ahmedabad

LANGUAGES

English · Hindi · Gujarati
